Dear Mr. Dyer and Mr. Dunn:

This is in response to a review of a document entitled, "Water Well Survey", prepared and submitted on behalf of Shell Oil Products US (SOPUS), in cooperation with ConocoPhillips Company (COP), by Mr. Robert Billman, Senior Project Manager, and Mr. Kenneth A. Hagg, P.E., Vice President, of URS. Additional information was received via e-mail correspondence on July 23, 2008, which provided well completion reports for wells identified in the Water Well Survey (WWS). The purpose of the subject document and additional information is to satisfy Condition 2 of the April 18, 2008 Illinois EPA letter (Log No. B-43-CA-6).

The approval of this document will not: (1) resolve any of this facility's possible violations of the Illinois Environmental Protection Act and/or 35 Ill. Adm. Code 620 regulations as set forth in Violation Notice L-2008-01134; or (2) prevent the USEPA or Illinois EPA from pursuing enforcement proceedings and monetary penalties as a result of the afore-mentioned possible violations.

The Illinois EPA has determined that the WWS was completed in accordance with 35 Ill. Adm. Code 1600.210, with regards to the 1986 benzene release area as defined by investigations conducted in 2006. The WWS is adequate to satisfy the requirements of Condition 2 of the April 18, 2008 Illinois EPA letter (log No. B-43-CA-6).

Work required by this letter, your submittal or the regulations may also be subject to other laws governing professional services, such as the Illinois Professional Land Surveyor Act of 1989, the
