Subject: RE: Roxana SVE System Shutdown - Advance Notification

Jim:

AECOM is sending this e-mail to you as required by Item 7 of IEPA's April 9, 2014 letter (Log No. B-43R-CA-65, 68, and 76) and Item 7 of IEPA's May 15, 2015 letter (Log No. B-43R-CA-66 and 84). Item 7 requires that the IEPA Bureau of Land, Permit Section, and the Collinsville Field Office be notified by e-mail if the full-scale SVE system is down for more than 72 continuous hours. We are providing advance notice of shutdown of the SVE system which will exceed 72 hours. The SVE system was turned off on Wednesday December 27, at 2:35 p.m. as the recent winter weather conditions are causing ice buildup in system components. We will bring the SVE system back on-line when temperatures increase and icing of system components would not be anticipated. AECOM will notify IEPA when the system is brought back on-line.

Thank You

George D. Jones
