Shell Oil Products – Roxana Soil Vapor Extraction System Condensate Tanker Hauling to Roxana WTP and Groundwater Sampling Wastewater Discharge to Roxana POTW Sewer via Onsite Manhole – Treated Water Analytical Data
Water Pollution Control Permit No. 2026-EO-74963
3rd Quarter 2026 Analytical

To Whom It May Concern:

AECOM Technical Services, Inc. (AECOM), on behalf of Shell Oil Products US (Shell), is submitting this letter as required by Water Pollution Control Permit No. 2026-EO-74963, Special Condition 6. This Permit is for the hauling of nonhazardous condensate from the Roxana Soil Vapor Extraction (SVE) System to the Village of Roxana Wastewater Treatment Plant (WWTP) via tanker. This Permit also covers discharge of nonhazardous groundwater sampling discharge to the Roxana WWTP via an onsite manhole. Special Condition 6 of the Permit requires monitoring of both types of permitted water and submittal of analytical results to the Illinois Environmental Protection Agency (IEPA). Condensate and sampling wastewater are sampled prior to hauling or discharge, respectively.

Roxana SVE System Condensate

No condensate was hauled to the Roxana WWTP in 3rd Quarter 2026 (July, August, September).

Groundwater Sampling Wastewater Discharge

No groundwater sampling wastewater was discharged to the onsite sewer in 3rd Quarter 2026.

Please contact Ms. Wendy Pennington (wendy.pennington@aecom.com; 314-452-8929) with any questions.

Sincerely,

Wendy Pennington, P.E.
