Mr. Leroy Bealer,

This is in response to a letter submitted by Wendy Pennington on behalf of Shell Oil Products US (SOPUS) dated March 23, 2022, and received on March 25, 2022. The subject letter is a request to modify due dates for quarterly soil vapor sampling and soil vapor extraction (SVE) monitoring reports at the Public Works Yard and surrounding area located in Roxana Illinois. The request was logged in as B-43R-CA-108.

Some of the soil and groundwater at the Village of Roxana Public Works Yard site was contaminated with Benzene from a pipeline release that occurred to the northwest of the intersection of Rand Avenue and Route 111, and to the west of the Wood River Refinery (WRR) North Property West Fence line. To remediate the release, SOPUS has been operating a SVE system and conducting quarterly sampling for soil and groundwater in this area.

The monitoring reports include information required by Condition 11 of Illinois EPA' letter dated May 28, 2015, Log No. B-43R-CA-66 and B-43R-CA-84. Condition 12 of the aforementioned letter provided the due dates for the quarterly soil vapor monitoring and SVE reports.

The Illinois EPA hereby approves the requested modification to report due dates for SVE and soil vapor monitoring listed in the table below.

Quarter of Calendar Year	Report for the Months of	Current Report Due Dates	Proposed Modified Due Dates
1 st Quarter	January-March	May 1	May 15
2 nd Quarter	April-June	August 1	August 15
3 rd Quarter	July-September	November 1	November 15
4 th Quarter	October-December	February 1	February 15
