Log No. B-43R-CA-21**

Dear Mr. Smith:

On behalf of Equilon Enterprises LLC d/b/a Shell Oil Products US (Shell), AECOM Technical Services, Inc. (AECOM) currently is submitting this request for extension to the due date for the *4th Quarter 2022 Roxana Interim Groundwater Monitoring Report*. This report includes information required under required by Condition 7 of the Agency's letter dated August 5, 2010, as well as information required by subsequent key correspondence from Illinois Environmental Protection Agency (IEPA). Condition 7d of the IEPA's August 5, 2010, letter provided the due dates for quarterly Roxana Groundwater Monitoring Reports, which is January 15 each year for the fourth quarter reports.

It is being requested that the due date for the *4th Quarter 2022 Roxana Interim Groundwater Monitoring Report* be extended by approximately two weeks, to January 30, 2023. This extension request is based on a two-week delay in starting the 4th Quarter 2022 groundwater sampling event to avoid simultaneous operations at the WRB Refining LP Wood River Refinery (WRR).

If you have any questions concerning this request, please contact Leroy (Buddy) Bealer, Shell Senior Program Manager, at (484) 632-7955 or leroy.bealer@shell.com, or Wendy Pennington at (314) 452-8929 or wendy.pennington@aecom.com.

Sincerely,

Melissa Remiger
Environmental Scientist, AECOM
